For over 50 years Collingwood has been the leading supplier of lighting components in the United Kingdom. We have developed many unique products that are designed to ease the assembly of decorative lighting as well as cut production times.

With the range of products available from Collingwood Lighting Components (CLC) we can cater for all your technical requirements whether you are producing for the UK market and any country around the world.

CLC as well as having our own extensive range of products are also the sole and exclusive distributor for Ardit.

Please feel free to contact us so we can assist you with any design requirements.

Orders under £100.00 are subject to a handling fee
(Components only. Does not include LED range)
